# The COIN PRESS Magazine

THE FIRST U. S. COIN PRESS USED IN 1793.

PUBLISHED TWICE A MONTH FOR THE COLLECTOR OF COINS, CURRENCY, TOKENS AND MEDALS.

# RARE INDIAN CENT 1867/SMALL 7

## 1867/7 INDIAN CENT WORTH MONEY – GOT ONE?

This new discovery has many dealers and collectors checking their sets and stock. The Gramatan Coin Shop from Mt. Vernon, N. Y. supplied the above photo — they have one.

It is believed the 1867/small 7 is from the three cent nickel die as it is smaller. Owners of 1867 Indian cents should check for this new variety as it no doubt will be listed in a future coin catalog. Since this variety is in a minority as in most all overdate varieties it would command a much higher value than the regular 1867.

An overdate is a number struck over another, and is not considered a mint error. Years ago, the mint, to save time and dies use to recut a new number over another on the dies, only by close inspection with a magnifying glass can an overdate be seen. A check of the early U.S. coin issues in catalogs will show many such varieties. Of late the following are known: 1942/41 dime, 1918/17 S quarter, 1918/17 D nickel. Recent finds are: 1882/3 shield nickel, 1893/92 dime, 1869/68 cent.

With millions of collectors constantly checking coins and dates it is likely several more overdates and varieties will be dicovered in the future.

## Smoky Mountain Coin Club

### Knoxville, Tennessee

The Smoky Mountain Coin Club, host club to the second annual Appalachian Confederation of Coin Clubs Convention, is proud to announce that Mr. Peter B. Payne, from California, has accepted the auction for the Convention to be held September 8 and 9, 1961.

Due to the overwhelming requests for bourse tables we were forced to change hotels for larger quarters. We were fortunate to secure the grand ballroom at the Andrew Johnson Hotel, Knoxville, Tennessee. Convention plans are in full swing. The awards for displays are of Onyx and metal and a thing of beauty. All door prizes are in the numismatic field. There will be approximately two million dollars on display. An attendance of over 2,000 is anticipated.

The Great Smokies and the TVA lakes will be at their peak both for entertainment and beauty. They are one hour from the hotel by bus. You can also enjoy a leisure swim in the beautiful new pool at the hotel.

Information, brochures, hotel and banquet reservations may be obtained by writing Mrs. Rosemary B. Jury, 6008 Kaywood Drive, Knoxville, Tennessee. For bourse tables, (@ $15.00 per) contact Mr. Max Dawson, 132 Indianhill Drive, Greeneville, Tennessee. The banquet will be buffet style with an array of fine cuisine that only the masters of the culinary art employed by the Andrew Johnson would attempt. There will be nice prizes and a gift for all who attend the banquet.

The Smoky Mountain Coin Club members and the people of Knoxville wish to extend a personal invitation to you and your friends and family to attend our fall Convention. We will do all in our power to make your visit a happy and memorable one.

Please get your reservation in as soon as possible.

**1908/1808**

I believe this coin to be very rare—because of the date (the 9 has curled up and joined the top loop to form an 8). It is very easily seen with your naked eye. The bottom of the 9 is joined on very solid—I'd call it the 1808 Indian Head Cent. I'd like to determine its value as a coin collectors piece. I would also like to know if there is another one like this around.

**—Peter Polovnikoff**
Box 2, Nelson, B.C.

### COIN CLUB ORGANIZED IN MONROVIA

Only 5 months old and having almost 100% membership. The meetings are held at the Odd Fellows Hall in Monrovia. Of a total attendance of over 85 people per meeting 95% of them are members.

Elected as officers were Richard Aster, President; Don Hisey, Vice President; Dorothy Bowers, Secretary; Floyd Dill, Treasurer; Forrest Mountjoy, Auctioneer. Serving on the Board of Directors are Amos House and Frank Strauss.

We have had many good speakers which includes George Van Horn and Mr. Wm. McFerran.

The auctions were fine, fast and attractive. Monrovia Coin Club is planning an all day meet in the near future with clubs in the San Gabriel Valley and outlying districts being invited.

The two bourses command quite a bit of attention.

The charter of the club is still open and we extend an invitation to everyone to visit our club and become a member. We meet the second Monday of the month.

Just thought I would send in my **Rare Coins Survey List**. I think this is a wonderful idea. Your survey not only shows how many rare coins are in collections, but also gives an idea of the number that are left to be found.

I quite agree with Mr. Myrick (Jan. issue) that miracles still happen, for just a few months ago, I found a 1909-S VDB cent in VG-G condition. The cent has several of the wheat lines on the stalks, but has a small scratch across the V.D.B.

I have always envied others that have found key coins, but never thought that I would be able to find any of them.

I tell you this because I hope it will serve as encouragement to other collectors.

Enjoy your magazine very much. Keep up the good work.

## "Open Graves"

**by Kalvart K. Tidwell, A.N.A. 16320**

Back in the early 1900's - 3, 4, and 5, in late summer we used to visit Grandmother in the country. On occasion, with little rain during the long, hot months, the ground about her place would crack wide open - down deep, often further than our young eyes could see. These land cracks often served as a grave for both the living and the dead, to wit: Grandmother usually had a hen or two with young chickens. Mother hen would jump these cracks. Her chicks would attempt to follow, only to fall into an open grave. At another time Grandmother would say, "Son, a dead hen lies out by the fence line - go and drop her in one of the large cracks."

All of which reminds us of the 1828 tobacco story as related by Noah Smithwick in his early Texas volume, "The Evolution of a State." (1900). In effect, life in the colonies becoming boresome and not too profitable, Noah sold his blacksmith shop at Bell's Landing (Columbia) and invested his take in 1000 lbs. of leaf tobacco. Thereafter, with three of his friends, he headed for Mexico on a smuggling expedition. Crossing the Rio Grande near Laredo, the tobacco was sold in nearby villages for $2.00 a pound, all in silver coin, and quite bulky. Back across the river, and into Texas, they were followed by Mexican soldiers who suspected that they had evaded the payment of import duties of some sort.

To hide the money, the ground surface was well marked and the heavy saddle bags of coins were dropped into one of those dry weather crevices which so frequently split the mesquite prairies. Now they allowed the soldiers to overtake and search them. With apologies, the soldiers headed back, and the men returned for their money. The cleft was so deep there was no way to reach the bags. They would need pick and shovel to dig them out, and these could only be obtained in the nearest settlement, many miles ahead on the trail back. Before the men could return, heavy rains hit the prairie obliterating all landmarks. In their washings, the land cracks took on vastly different appearances, and none knew where to dig.

Years later, Noah hinted "if anybody wants to search for buried treasure, there is his chance, if it hasn't gone through to the other side of the world."

# From Your Editors Desk

**New Find 196 Circle 1**—Harold Weinberg of Kearny, N. J. discovered 54 such pieces in a mint sealed bag from Denver. Several days later two other persons found several of these.

This oddity has a complete circle around the 1. Harold reported some are not completely centered but can be plainly seen. A close inspection shows the circle to be incused some cut into the 6. It appears some foreign partical was stuck on the die to give the impression.

**New Stock**—with our next issue we plan to use a dull soft white inside page stock. This we believe will help our readers to enjoy the contents better without glare as glossy stock tends to reflect.

**Publication Date**—our advertising copy deadline dates are: the 1st and 3rd monday of each month. Our issues will be in the mails 5 days later. 3,000 extra copies of each issue have been distributed besides our newsstand supply and regular paid circulation these past months at no extra charge to our advertisers. Many professional men keep a supply of our CPM in their waiting rooms, so your ad can still draw orders months later. If you haven't already sent us an ad, try one with us today.

**Exclusive CPM Coin Guide**—our coin guide will feature the current price values of the day to keep our readers up-to-date monthly. We hope this additional service pleases you.

**Coin Sales Down**—reports received these past months show sales dipped due to summer vacations. With half of the summer gone activity will be increasing shortly.

HAPPY VACATION!

# PARTY LINE

BILL . . . I hate to let her go. She's been in the family so long.

JOE . . . What kind of shape is she in?

THIRD PARTY . . . (lady listening in) That must be his wife they're talking about.

BILL . . . She's in very good condition for her age.

THIRD PARTY . . . He's no good, that guy.

BILL . . . I would like to trade her for an earlier date or some S & H stamps.

THIRD PARTY . . . These men are all alike.

BILL . . . I picked her up at a coin convention.

THIRD PARTY . . . He's a scoundrell alright.

JOE . . . How is her Obverse and Reverse?

BILL . . . Well she has a blob on her chin, but her reverse really stands out.

THIRD PARTY . . . Their funny language, how disgusting.

JOE . . . I have a gem, no cents, I can give you in exchange.

THIRD PARTY . . . They should be ashamed. She has no sense!

BILL . . . I'd rather destroy her than let her go for that.

THIRD PARTY . . . Oh! dear, now he wants to kill her.

JOE . . . Take it easy Bill. I really can use that coin in my collection.

BILL . . . I think someone is listening in, I'll call you back.

THIRD PARTY . . . (soft click).

—JIM WHALEN

### CHICAGO COIN CLUB'S "FALL FESTIVAL"

Some of the finest coins, currency, medals and tokens ever assembled are to be auctioned at the three day Fall Festival of coins.

The Chicago Coin Club will host this long awaited for affair which will start Friday, October 13th, carry through Saturday 14th and conclude Sunday 15th, 1961, on the mezzanine floor, Hotel Sherman, Chicago, Ill.

There will be exhibits, ladies activities, prizes, registration, etc., everything to make this a truly gala coin Festival.

Sixty per cent of the one hundred bourse tables have been subscribed for, and those desiring further information should contact, Harry Boosel, chairman, 65 E. South Water Street, Chicago 1, Illinois.

Enclosed is my renewal for my second year of **Coin Press**. My first year was a gift from my mother-in-law. I have saved every issue because I enjoy them so much. We are a coin collecting family, even our dog who became interested in my May 31 issue of **Coin Press** and chewed it up quite badly. Enclosed is an additional 35¢, please send me another May 31 copy so my series will be complete. I collect both United States and Foreign Coins and my wife goes for the Canadian series. Even our 6-year-old daughter has her penny collection. I would be interested in contacting any other military personnel who enjoys our hobby as we do. My renewal starts with issue No. 8-61.

—CMSgt. Otis H. Jenkins
Minot Air Force Base
North Dakota

### NEW COIN CLUB ORGANIZES IN STRATFORD, CONN.

The newest coin club in Connecticut was formed May 2, 1961. At the close of the Charter Membership drive 35 members were signed up. Charter Officers elected for the year were, Elmore F. Lumis, President; James Makraus, Vice President; Arnold Peck, Secretary; Charles McMellon, Treasurer. Meeting the first and third Tuesday of each month. At each meeting proof sets are being awarded as door prizes, including sets from 1955 to 61. Also a feature that is being very successful is a proof set savings account. Members may deposit any amount they wish with the Treasurer at each meeting at the time the Mint accepts orders for 1961 proofs the club totals up the savings of each member and will order the number of sets they have coming. Thus eliminating the need of the member to send for his proofs and enabling him to get several sets without putting a strain on his coin budget. Swap sessions, auctions and bourse tables are also used from time to time.

Membership to this club is open to collectors from Bridgeport, Stratford, Milford, and Trumbull, and members of any clubs being in this area are welcome to attend a meeting. Meetings are held at 2375 Barnum Ave., Stratford, starting at 8:00 P.M.

—ARNOLD PECK, Secretary

# 400th Anniversary

## HUGUENOT HALF DOLLAR—1562 - 1962

In the year 1561 France became embroiled in the Religious Wars and persecution of the Huguenots by the weak King Charles under the malevolent influence of his mother, Catherine de Medici, was beginning to work toward its culmination in the massacre of St. Bartholomew. Gaspard de Coligny, Admiral of France, was the great protagonist of the Huguenots of Normandy and, all efforts at a peaceful settlement coming to naught, he petitioned the King for permission to plant a colony in Florida. The project was no less agreeable to the French monarch, who wished to be rid of his troublesome subjects, than to Coligny himself, who conceived the hope of becoming the founder in the New World of the first asylum for the persecuted and oppressed.

Quickly a small fleet was fitted out and in February of 1562 the expedition, under the leadership of Jean Ribault with 126 soldiers and sailors, departed from Dieppe to find the River Jordan, of which an earlier Spanish explorer Lucas Vasquez d'Ayllon had given such glowing reports some forty years before, there to select a site for the new colony.

Within two months it had made a landfall a little below the present St. Augustine and after brushing past the River of May and planting a pillar at the present Mayport, Ribault sailed on north seeking his destination. On May 17, 1562, by a happy chance, he came to anchor in a fair haven, which because of its spacious anchorage and protected depths he gave the name of Port Royal. Here believing that he had at long last found a tributary of the Jordan, he decided to leave a garrison while he returned to France for additional colonists. He planted his second "padron", or pillar, signifying occupancy, and at the garrison's request built a small fort on what is now Parris Island, which, in honor of his king, he named Charlesfort.

Arriving in France, he became enmeshed in the terrible religious controversies of the day and sought refuge in England where, with debatable motives, he tried to interest Elizabeth in his ventures.

The colony at Port Royal had a brief but tragic existence. The storehouse with all supplies being consumed by fire, the settlers were cast upon the hospitality of the natives and, being soldiers and sailors rather than farmers, made no provision for themselves. Dissentions arose, and after a few months they sailed for home in a makeshift ship. Disaster dogged their heels, but after passing through the horrors of hunger and thirst the decimated crew arrived in France.

To commemorate this historic event a "Huguenot Half Dollar" medal was struck. The "Huguenot Half Dollar" medal, struck in limited number, is one and one-half inches in diameter and weighs 185 grains. It is made of bronze with a beautiful goldine coating which is sealed to preserve its brilliance. The obverse shows the profile of Jean Ribault. The ship portrayed in the harbor is a replica of the type vessel Jean Ribault anchored off the shores of the area which he named Port Royal. The famous South Carolina Palmetto's shown on the beach stand as mapestically today as they did 400 years ago.

On the reverse is shown the torch on which are found three Fleur's de Lis, a heraldic device, the bearing of the former royal family of France. Embracing the torch are leaves from the giant palmettos.

The direct quotation, "No Fayrar or Fytter Place", was obtained from a translation of a report from Jean Ribault to the King of France describing the area of land upon which his men settled.

The Beaufort Junior Chamber of Commerce is handling all mail sales of this medal. They are working in conjunction with the Quardri-Centennial Commission of Beaufort County who has struck this medal to celebrate this 400th anniversary which is probably second only to the landing of Columbus in the history of North America.

These "Huguenot Half Rollar" medals are available from the Beaufort Jaycees for one dollar each postpaid. The medals are attached to a printed card giving the history of the celebration.

Address all orders to Beaufort Jaycee Medal Sales, P.O. Box 678, Beaufort, S. C.

# Coin Club Donates Numismatic Books

**Left to right—J. B. Gregory, Vice-President; Arnold Barwick, President; Mayor J. W. Abernethy, Jr., Charter Member of P. N. S.; Mrs. J. L. Summers, Librarian; all of Newton, and Hugh Abee, Hickory City Alderman and Librarian Curator for the Piedmont Numismatic Society.**

The Piedmont Numismatic Society (Newton Coin Club) of Newton, North Carolina, as a public service has donated the following books (having a total value of over $100.00) to the Catawba County Library for use as reference:

**Friedberg's Currency**
**Friedberg's Gold Coins of the World**
**Criswell's Confederate Currency and Current Price List**
**The Four A. N. A. Reprints from the Numismatist**
**Redbook**
**Blue Book**
**Green Book**
**U. S. Paper Currency**
**American Standard U. S. Coins**
**Canadian Standard Tokens and Currency**
**Brown and Dunn Grading Guide**
**Lincoln Cent Errors**
**Confederate Paper Money**
**Royal Greek Coins**
**Moneys of the Bible**
**Modern World of Coins**

As can be gathered from the various titles, these books can serve as invaluable references to persons interested in historical, Biblical, and geopraphical studies, as well as to those primarily interested in coins.

The Piedmont Numismatic Society was formed two years ago and now has well over a hundred members, many from out of the State. The members, while being primarily interested in coins and related items, have wanted to start a reference library for some time. The President, Arnold Barwick, together with Mrs. J. L. Summers, Catawba County Librarian, has worked out a plan whereby these books can be made a permanent part of the library. Thus, the books will be available for use by the general public as well as the Society Members. The Club wants to stress that these books are available to anyone desiring to use them.

The Piedmont Numismatic Society meets regularly on the "Second Thursday" and "Last Saturday" nights in every month. Meetings are held in the air-conditioned Community room of the Citizens Savings and Loan Building on the Court Square in Newton, N. C. These meetings are always open to the general public, and everyone is cordially invited to attend.

## — GENERAL RULES AND INFORMATION —

*This column is formed to better acquaint subscribing members, dealers, collectors and beginners with standards of this magazine and pass on informative news. This column should answer most questions and inquires frequently asked. Write to the editor for any information not contained in this column.*

### SUBSCRIPTION RATES

U.S. and Canada—$3.00 per year.
Foreign, $5.00 per year.

**PURCHASING ITEMS FROM ADVERTISEMENTS–** Coins are offered for sale in the following manner: By Fixed Price—the price quoted by the seller; Or by Auction, where there is no price quoted but solicited. In this method of sale a lot number is given each item. You enter a bid along side of the lot of your choosing, which can be higher or lower than (price guide if one is listed). The high bidder being the buyer. After the closing date, the advertiser will notify those who are the highest bidders. Unless credit is arranged, payment is required before shipment is made.

**THE PUBLISHER** reserves the right to edit or reject any ads or news they deem objectionable and will not be responsible for letters written by hand. Please send cash with ads. All advertising cuts to be furnished by advertisers or send cash amount to cover expense of having it made. Send articles, news items of interest for print to the Editor.

Manufacturers supply and material prices will be honored. No cut-rate ads of same will be accepted in order to protect name brand company prices.

We accept advertising in GOOD FAITH. All transactions will be solely between the advertisers and the purchaser.

We screen our advertisers and endeavor to accept only responsible advertisers.

Opinions expressed by writers of articles, columns, comments, etc. in this magazine are their own and do not necessarily represent the views of the editors or officers.

When writing for information to dealers or collectors, be kind enough to enclose a stamp for a response. It's been my pleasure to say practically all dealers and collectors are honest and fair. No trades are final until both parties are satisfied. On purchases it is customary to give at least a 3 day satisfactory refund.

No reply in 7 days, transaction considered accepted.

### NOTICE TO MINORS

Advertising copy will not be accepted from minors until a statement of responsibility form is executed by the minor's parent or guardian. Minors desiring to advertise should send a written statement from parents accepting responsibility.

### GRADING STANDARD

PROOF — Coin, a mirror-like finish, especially struck for collectors on polished metal blanks and struck by slower hydraulic press to obtain best feature lines.

UNCIRCULATED — made for general circulation has lustre. A Gem is usually well struck, has lustre, no scratches, rubbings or mars.

EXTRA FINE & A. U. — about same. Coin is about uncirculated slightly worn on high points and may have some mint lustre.

V. Fine—Has been circulated but all features and lettering are sharp.

Fine—Has all features and lettering but not sharp. Liberty is readable.

V.G.—Has border rims most features and lines visible. Part of Liberty visible.

GOOD—All features and lines worn but visible.

FAIR—Considerably worn.

POOR — Considerably worn smooth, or corroded, good only as space filler.

*This grading is used only as a guide to help you and is a general medium used by all dealers and collectors in the Numismatic field.*

### POINTS TO LOOK FOR ON SOME POPULAR COINS

1 CENT LINCOLN: The lines on wheat stalk and Lincoln's ear are a good spot to look for wear. On a coin classed as very good most lines should be showing on a coin graded fine they should be clear.

5 CENT LIBERTY: E Pluribus Unum is legible on coins graded good, clear on coins graded very good. One graded fine should have full liberty.

5 CENT BUFFALO: On a good coin edge of word liberty may be slightly worn, but on one graded very good the word Liberty is clear and one-half of horn shows, a fine coin should have nearly a full horn, a coin classed as very fine has full horn and tail shows on hip.

10 CENT MERCURY: Watch lines on axe fasces, on coins classed very good some lines show, a fine coin should have all lines.

**FOR BEGINNERS** who are just starting to collect, here are a few suggestions and some advice. First, a coin guide book is a must. They can be purchased for $1.00 or more for helpful information: on care, condition, value, amount minted, types, how coins are made, and other news of help and interest. Most coins can be found in circulation. As you are making your set always try to improve the worn coins. Value of coins depends greatly on the condition. Never clean or polish coins unless you are experienced. If you must try, use a common date coin. There are handy cleaning kits available for this purpose. Coin insert folders and other supplies can be obtained at your dealer. You may also notice that the age of old coins do not make them rare. There are some late date coins minted that are worth more than some hundreds of years old. What makes one coin worth more than another by these factors: Amount of coins minted, availability, collectors' demand and any unusual die strikes. Coins can be obtained through purchases, by auction or trading with collectors.

**MINT SETS:** Uncirculated 1960 coins of the two mints of Philadelphia and Denver (10 coins) may be obtained from the Treasurer of the United States, Cash Division, Washington 25, D.C. These sets are $2.40 each (10 coins) and may be ordered through December 1961.

**PROOF SETS** of current year send $2.10 money order to Supt. Phila. Mint, 16th and Spring Garden Streets, Philadelphia, Pa. You may order up to 100 sets per person.

**COMMEMORATIVE** half dollars are authorized periodically by Congress. These halves when issued are not sold by the mints. They are turned over to a Commission authorized by Congress at face value. The Commission then sells the halves at a premium.

**CANADIAN COINS:** Inquirers should write to the Mint Master, Royal Canadian Mint, Ottawa, Can.

## *KEY COIN CLUB*

The KEY COIN CLUB will host a coin convention on OCT. 21 and 22 at the Y.W.C.A. in NEW HAVEN, CONNECTICUT. We are planning to make this convention the biggest ever held in this locality. We are having some very big exhibits, auctions, banquet, door prizes, gifts and many other surprises.

Admission to the public will be free and our advertising department is working hard to make this affair a big success. Dealer response at this early date has been overwhelming and we suggest that dealers interested not wait any longer for a bourse table. Dealers interested in obtaining a bourse table should contact FRANK C. MIRTO, at 471 LEGION AVE., NEW HAVEN, CONN. Dealers will have complete protection, no floor selling will be allowed, by non-dealers. Persons attending the convention can buy and sell only with the dealers who have a bourse table. There will be a group of ushers to serve the dealers such as cigarettes, coffee, sandwiches or a complete meal. We will have complete catering service in the adjoining room. Dealers will have plenty of elbow room so they can work freely and efficiently.

# CANADIAN COIN PATTERNS

By EARL A. McBRAYER 498 Sunland Drive, Cincinnati 38, Ohio

A list of prices realized from a recent large auction provides us with material for comment in Canadian Coin Patterns this week. Many scarce Canadian coins were included in the sale. Some bargains were obtained and these will be excellent investments for the future. Despite increased interest of the past year both beginner and advanced Canadian collectors still can find good buys in auctions if they will take the time to fill out a bid sheet.

In this article we have tried to keep our valuations at a reasonable level. Of course if the collector wants to pay more for a specimen, and has to have it RIGHT NOW, he can always find a seller who will oblige him with a higher price. But we were pleased to find a large number of key Canadian coins selling at the prices listed in our suggested purchase range.

A few examples of prices realized for popular series coins follow:

| | | | | | | | |
|---|---|---|---|---|---|---|---|
| 1891 S.D. L.L. 1¢ | F/VF | $57.00 | 1889 | 5¢ | EF/AU | 37.00 |
| 1907-H 1¢ | VF/EF | 14.00 | 1925 | 5¢ | EF/AU | 70.00 |
| 1925 1¢ | EF/AU | 14.00 | 1925 | 5¢ | AU | 90.00 |
| 1858 S.D. 5¢ | VF | 16.50 | | | | |

The 1948 choice mint set brought full catalogue (1960 Charlton) of $110.00 and I believe it to be a bargain for investment at this price. A choice brilliant uncirculated 1948 set is very dfficult to assemble.

It was interesting to read that one set of nickels (1922-59) brought $15.00 but a lot of **three** nickel sets brought little more than **twice** the price of a single set. The three sets brought only $32.00 — a very fine buy for the lucky investor! There were many similar bargains where lots contained more than one of an item or miscellaneous groups of Canadian material.

One word of caution: know your auctioneer to be a reputable person who will stand behind the material consigned to him. I recently bid on a lot of forty-four "ancient" coins and found on arrival that less than 25% of the coins were ancient. I was asked to pay in advance for the material and it will be interesting to see if the dealer is as reputable as reported when he receives my letter of comment!

AMERICAN NUMISMATIC ASSOCIATION
OFFICERS' BULLETIN

# Suggestions For Holding Conventions

By MATT ROTHERT, 2nd Vice-Pres.

An Annual Coin Exhibit and Convention is desirable for coin clubs of all sizes. It could well be a part of each active coin club's annual program.

A coin club, like any other club, has periods of growing interest and waning interest. A period of uninterrupted, waning interest may result in a definite deterioration of the club. We urge, therefore,

First: an annual coin exhibit and convention as a club project to stimulate interest, and help unite the various factions or groups usually found in a club.

Second: the project will help to give "direction" to the club. It presents a challenge, something to work on, and something to accomplish.

Third: with a major project, the club will work together and attract new members. In order to hold a successful convention ten committees are suggested for an average size club. This means ten chairmen and many committee members, providing some work for all the club members, encouraging them to learn to work unitedly as a club.

Fourth: a convention with a maximum number of exhibits by the greatest number of club members possible, will present another way for the club members to absorb numismatic information and will help develop true collectors and real numismatists.

We are often asked to suggest the essential elements necessary for a small club to hold a coin convention.

Coin conventions must be planned ahead, the larger the convention, the further in advance the plans must be made.

The entire club should cooperate. To keep the members working together, the club should make preliminary decisions at the regular meetings and members should be kept informed of the progress.

A non-conflicting date should be set, after a careful study of all dates of other conventions is made. This date should be made as far ahead as possible.

Committees should be appointed, with hard working, dedicated chairmen selected for their particular ability in that field. The following committees are suggested:

1. Exhibits committee.
2. Dealer and Bourse committee.
3. Location committee.
4. Program committee.
5. Hospitality committee.
6. Registration committee.
7. Women's entertainment committee.
8. Auction committee.
9. Security committee.
10. Publicity committee.

In smaller clubs some of these committees may be combined.

The Exhibits committee, in my opinion, should be mentioned first. One of the most important phases of a convention is a display of interesting exhibits. This stimulates interest in collecting for both the beginning and advanced collector. Good exhibits help to make "numismatists" out of "fast-buck" collectors not having their own cases may exhibit.

This committee should decide on the classification of exhibits such as:

Class I U. S. Coins
Class II Foreign Coins
Class III U. S. Paper Money
Class IV Foreign Paper Money
Class V Miscellaneous

They may also include special classes, if desired. Examples are: Gold coins, Junior exhibits, Confederate States of America exhibits, etc.

The dealer and bourse committee can make the convention self-supporting. Many smaller clubs may not be aware that their club can make expenses if a budget is worked out based on the number of dealers that will take tables times the rate charged per table.

The location, usually a hotel, should be secured on a definite basis, ahead of time, so there will be no other conflicting conventions there. The location committee's work does not end with the acquisition of the location. Constant liaison must be continued and many last minute arrangements are usually normal.

An interesting program is most important. Printed or mimeographed copies of the activities should be prepared. The previous issue of the A.N.A. officers bulletin Vol. X, No. 3, published in April 1961, was filled with examples of programs. We suggest the use of one of the A.N.A. slide sets in your plans.

The Hospitality, Registration and Women's Entertainment committees are self-explanatory, the effort and time given these features depending upon the size and the desires of the club.

The Auction committee is mentioned next, as an auction is often desirable. We suggest that you not have too many lots, with the regular club auction rules applying.

The Security committee is ever growing in importance. Guards and insurance must be arranged. Security is usually necessary the day before and the day after conventions. Often arrangements should be made with the local Express Compay to have a representative at the Convention on Sunday, if necessary.

A good, live publicity committee that can obtain local newspaper coverage and can have the backing of the community is most important to obtain attendance for the show.

With these committees functioning properly a successful convention is assured.

### WHY STRESS EXHIBITS AT YOUR CONVENTION?

Several good reasons why the individual coin collector should exhibit and the coin club sponsor and encourage exhibits follow:

A. An exhibit requires research and background study. Every collector has certain coins or bills in his collections that appeal to him more than others. In books from his own library, or those found. These may be some special or exciting fact that can be mentioned in the Exhibit.

B. An exhibit requires layout and design consideration and study. The exhibit should attract others than the collectors of that particular material displayed. Artistry is necessary to make it interesting to all, and especially to the judges.

C. An exhibit requires a short and concise descriptive explanation of the items. You cannot throw your coins in a case and expect to win a prize. You enjoy and profit when you work out important to the judges.

D. A good exhibit must be made with knowledge of how exhibits are judged. If the exhibit is not entered for a prize, it should still be displayed with that in mind. Possibly the same exhibit could be used later in a convention where prizes are given.

The writer has judged many exhibits. The rules and point systems differ slightly in most cases. A popular point system used today is:

30% for numismatic information conveyed to viewer.
20% for originality of exhibit.
20% for arrangement, neatness and eye appeal.
10% for relative condition of material displayed.
10% for relative completeness.
10% for rarity and/or value.

100%

A simple point system often used is:

30% for numismatic information conveyed to viewer.
30% for originality, arrangement and effort.
20% for relative condition of material.
20% for comparative completeness.

100%

E. Some collectors think that valuable and scarce coins are necessary for an exhibit, but this is not the case. An exhibit does not require rare items. In one exhibit that I judged the "best in show" did not cost over $25.00. It gave the geographic and historical background of the items, and contained excellent numismatic information. It was complete for the small sector of numismatics that it represented. It is important to note that the value of the material is not of importance in judging exhibits. The basis of judging as set forth above allows inexpensive material to compete on an equal basis with more expensive material.

F. An exhibit must be planned ahead, so do not wait until the last minute. You may furnish your own case or the cases necessary for your display may be reserved.

G. A great deal of thought should be given to the manner of presentation. The same material may take first or last place, depending on the manner in which it is shown.

**Editor's note: Convention officers for future notice listings in this column please forward all information to editor.**

**The Furniture City Coin Club, High Point, N.C. will hold a coin convention in the High Point High School Cafeteria, July 29th and 30th, 1961. W. A. Sparks Sec'y., Box 53, High Point, N.C.**

# "Loose Coin Talk"

**By NICHOLAS SALIMBENE**

I received a letter from Mr. Dan Rosa, Box 162, Marlboro, New York, in which he sent me three sample buffalo nickels that had been processed by a method which he is currently offering to sell to fellow collectors for a reasonable fee. He also sent me the method to try. This I did and will admit it worked perfect . . also, I had a lot of fun in processing a few buffalo and liberty head nickels. Mr. Rosa has an ad in CPM and I highly recommend it to be worth the money invested. If you over-looked his ad, write to him at the above address.

THE MID-HUDSON COIN CONVENTION only proved all the more that Sunday is a "MURDEROUS" day to hold a convention . . . it conflicts with too many things which seem to be reserved for Sunday alone. However, they did have a measure of success, BUT, could have done better if held on a Saturday.

THE NEW-HAVEN COIN CONVENTION was marred only by the building in which it was held. All other things considered, it was a collectors' delight. At both conventions this was the general trend: Rolls were dead, exception was the 1955-S Lincoln cents. Very little activity on proof sets. As usual, "Key Dates" were the center of attraction. I noticed that there is an ever increasing interest in the Canadian series which seems to center around the large cent, small cent and proof like sets.

THE RECENT CONFISCATION of a "Racketeer" nickel by the Treasury Department got me to thinking, by adding this coin to the ever increasing "Numismatic Items" that we can not enjoy in our collections, in the not too distant future — we will have to conduct our club meetings and coin conventions "underground" with the "Bootleg-Day" approach of three knocks on a door and whispering, "Joe sent me".

**SPECIAL FOR THE DRINKING CROWD**

A drunk enters a bar and orders two shots of whiskey. One he drinks, the other he pours into his vest pocket. He again orders two shots and like before, drinks one, pours the other in his vest pocket. The bartender, seeing this done twice, warns the drunk that he is running a respectful bar and does not want his place of business associated with a "nut". He further warns that he will throw him out on his ear if he repeats this nonsense. The drunk orders two more shots of whiskey and, in defiance, drinks one, pours the other in his vest pocket. The bartender, upon seeing this, grabs the drunk and starts to forcibly eject him, whereas the drunk shouts, "Get your hands off me before I punch you rght in the nose". Just then a LITTLE MOUSE sticks his head out of the drunks vest pocket and says, "AND THAT (HIC) GOES FOR YOUR CAT TOO!" . . .

WHERE THEY GET THE FIGURE of "over two million" collectors in our hobby to-day, I'll never know. I know of at least ten Numismatists in this area that if any one of them should die, there would be ten clubs who would mourn his passing . . . . if these same ten Numismatists should all be involved in one fatal accident, the Numismatic Hobby would suffer a major catastrophe . . . numerically speaking. Try adding up all of the subscribers from the different coin journals, you couldn't come up with three hundred thousand even if you cheated a little. We are then to believe that of three people who subscribe to a journal, there are seventeen who do not. I have mentioned time and time again to everyone who would listen, what our hobby needs right now more than ever, is a truely conducted survey. I believe that this can only be conducted through the "RED BOOK". A sort of self address envelope included in every book sold that the buyer would fill out and then mail back to the publisher. The questions could be determined by the ANA and through them released to the hobby. I have stated the "RED BOOK" because I believe they, more than any other journal, would reach more Numismatists. Give this a little thought and let me hear what you think . . .

THE VATICAN CITY post office has issued a new series of stamps commemorating the 19th centenary of St. Paul's coming to Rome . . . . The Treasury Department is thinking of changing our bills so each denomination will have its own color . . . If you are in the area of Farmers Market at 2701 Richmond Ave., Staten Island, drop in and say hello to Jack Feierstein who will operate a coin stand, Saturday only, from noon to 11 P.M. . . .

The answer to the four nine teaser is as follows: $9 \div 9 + 99 = 100$ . . . Try this one till next article . . . Brothers and sisters I have none, but that mans father is my fathers son . . . who is he? ? ? ? ? Keep your letters coming in . . . 67 Congress St., Newark 5, N. J. . . . Easy does it.

**"COIN TIP"** — Look for 1961 Lincoln cents where the last one is over an "O". They are showing up and should go for a good price! Have seen about three and they are nice.

# Philadelphia Dealer At Conn. Convention

**Harry Forman is shown with his copy of CPM**

A visit to Harry's table always shows a vast array of rare coins mainly gold. I remarked, "don't display so much gold, they don't look real spread out around the case." (He had rolls of them).

## FOR SALE
**1955 LAST 5 SHIFT**

## Revised Price List For Judd Pattern Book

Since the publication of UNITED STATES PATTERN, EXPERIMENTAL AND TRIAL PIECES by Dr. J. Hewitt Judd, the popularity of this series has increased steadily and the prices of most of the items in this field have risen to an all-time high.

The publishers feel that because the $10 price represents a substantial investment, purchasers of this book would be discouraged if they had to replace it now with a second edition showing the changes in valuations.

This situation has been discussed with the author and with Mr. A. Kosoff, the well-known coin dealer who assisted in the original pricing of items in the book. All agreed that the most satisfactory course of action would be to issue an up-to-date price list that could be used with the book.

Such a list has been prepared and the WHITMAN PUBLISHING COMPANY has decided to distribute it without charge to everyone who has purchased a copy of the book. This list uses the numbering system found in the Judd book and indicates current prices for every item that has changed since the book was published. The size of this list is identical with that of the A.W.-Judd number conversion table that was given away earlier this year as an addition to the book. It fits neatly inside the book for convenience.

Owners of the book may obtain a copy of the revised price list by sending a stamped self addressed envelope to The Coin Supply Division, WHITMAN PUBLISHING COMPANY, Racine, Wisconsin.

# "MY TWO CENTS"

**By R. A. Radice**
190 N. Munn Ave., East Orange, N. J.

Popular demand has it that I should continue with my discussion on the gold problem that I brought up in my column a few issues ago (June 1st Edition). Let it be known here and now that if the readers of Coin Press want something I shall try my best to give it to them. If there is anything concerning coins or numismatics that you feel should be discussed, please write and tell me so. If you would like I will add you to my staff of regular contributors of information with whom I maintain a steady correspondence.

Many readers feel that I did not explain the advantages of land as the solution to the problem of finding something on which our money can be based that could not be sythesized in the future. Maybe I didn't, but in any event I am thankful to them for bringing this to light.

Let's go back to the June 1st Edition in which I said, "each country has its own supply of land on which it can base its money. Whereas today many countries have to import gold to keep their monetary systems on a sound basis." Many readers wanted to know what would happen to a country like Belgium which is about 18 times smaller than France. Would Belgium have less money than France and France less money than the United States? Would that mean that the country with the most land would be the richest? Yes in a sense it would be. With the rapid growth in population land will be worth more than gold or anything else besides water and food in the future. (And remember this is a problem of the future!) That means the more land a country has the more people it will have. Which means buying power, and buying power is the thing that the United States survives from. Take away the people who are buying means taking away the money with which they buy. Remember back in 1957 when we had the recession? What caused it? It was caused by people not spending as much money as they should have been. President Eisenhower, when asked what we could do to stop the recession answered, "Buy!" When asked, "Buy what?" he said, "Buy anything, but buy!" In Vance Packard's new book "The Waste Makers" he states that the average citizen will have to buy 50% more a dozen years from now if the United States is to remain on the same economic leval that it is at today.

All this of course is excluding the Communist countries with whom we do not compete on the Common Market. But watch out because Russia has plans of coming into the Common Market and when it does the freeworld will have added problems. Right now Russia has plans of selling oil to other European countries at a reduced rate with plans of knocking American oil off the market. If American oil is forced out of the market the result will be thousands of jobless Americans, which is only one step into recession. These jobless Americans will then have less to spend and therefore will not be able to buy as much. When thousands of people cannot buy something that they could buy before someone else is going to feel it in his pocket. And so the chain keeps going until????? Here's something else to think about. Imagine what would happen to the freeworld if Russia offered to sell gold on the Common Market for twenty dollars an ounce. And Russia can do it because outside of South Africa it has the richest gold mines in the world. There are beliefs, however, that it has the richest supply because there are thousands of square miles in Siberia that have not been searched for gold. Present gold mines in Russia are located in Siberia.

This leaves Belgium as a poor country. Realizing this, Belgium and all the other free countries (which I pray means all the countries in the world) might join together to form a world government. Something like the United Nations of Earth. Sound like science fiction? Well look at Jules Verne back in the 19th century with his submarines and trips to the moon. Any way with a world government and a set amount of land Belgium and the world would have a sound basis for their money. This would also take care of trade with other worlds, if our world ever finds any to trade with, because gold may be a worthless mineral on some other world.

Other readers wanted to know what would happen if everyone cashed in their land certificates. How would the countries pay them off? May I mention the Gold Clause of 1933. In June of that year Congress passed an act outlawing gold payment in public and private obligations. This includes the United States government. The government will not give anyone gold if they want to cash in their certificates (paper money). What they will give them is a Federal Reserve Note stating that the note is equivalent to so much gold in the government's vaults. The same thing would hold true with land since the land does belong to the government (people).

Before I end, I would like to say, that gold is found in the ground and that one of the biggest deposits known to man is at Fort Knox. Ha?

*COMPLETE SET OF SILVER DOLLARS*

**Shown with his prize collection is Charles Scopp of Kingston, N. J. This collection was on display at Kingston, N. Y. Convention also among others.**

# Kingston, N. Y. Convention

**Shown above at extreme left is Joe Berman of N. Y. Some how Joe seems to get in a lot of pictures. Seated looking direct at camera is your editor. Behind me is Richard Margolis, in the background facing camera is Gerald Altz, specialist in Japanese money. Gerald is planning to write a Foreign Coin Book.. At the right bottom is Raoul Rose of Journal Square Coin Co. of Jersey City, N. J.**

Dear Frank:

Sorry we let our subscription run out. As you know nothing is ever missed until you are without it. That's the same with Coin Press.

You have sure kept on your toes on new finds such as the small date cent, etc. And have some very fine pictures of these coins. I think you will agree "1 picture worth 1000 words." "Old Chinese saying." We both, my wife and myself, and the whole family enjoy your magazine. Please send it along as we miss it.

I think you deserve much more credit for "your" finds than you have received from the press and other numismatic papers, etc.

Keep up the good work.

—Jim & Ann Napolitan

# Spanish Doubloon Rich In History

**Evening Gazette**
**By ED VASKAS**

Undoubtedly the Spanish doubloon is one of the most fascinating and historical coins in the world today. They are still being found, in the holds of sunken ships, buried deep in the sands on small islands, and even in caves in jungles and swamps where buccaneers and pirates hid their treasures.

This gold coin, minted by Spain or Portugal in several South American countries, is no longer made. It varied in value to about $16, but now commands a price of approximately $100.

Pirates looted ships the world over but most of the gold came from the Incas, Aztecs and other Indian natives of the New World in Mexico and northern South America.

**Hidden on Islands**

Hoards are being discovered even today along the Gulf coast of this country. Millions of dollars worth of gold and silver was hidden in the maze of islands along the Mississippi River, and along the coasts of Texas and Louisiana.

But the real baliwick of most pirates, such as Blackbeard, Henry Morgan and Laffite, was the Caribbean.

A letter sent to this column recently from the Panama Canal zone included the information that Isthmian collectors were having very good luck with their collections because the large number of skin divers in that area keep bringing coins up from the ocean bed.

Capt. Frank Kerley said that most of the coins found have been Spanish and British Colonial and were found in the area of Fort San Lorenzo, an ancient Spanish fort guarding the entrance to the Charles River there.

**Unusual Find**

Also, a very unusual find has been made. About a dozen Colonial pieces from Massachusetts and Connecticut, dated 1787 and 1788, have been discovered on the northern or open sea side of that section of Panama.

Interesting gold pieces have also been obtained from the San Blas Indians of the interior.

**ONE COINWRAP** will count, stack and package rolls of 50c in pennies, $2.00 in nickels, or $5.00 in dimes ten times faster and accurately. Unbreakable, no gadgets or adjustments. Used by schools, stores, churches, venders, taverns, in the home, all who have to count small change. Complete with simple instructions & wrappers. Satisfaction guaranteed

**John L. Corrigan ANA 36630**
**1002 McKinley**
**Louisville 17, Kentucky**

I am only 11 years old and have been collecting only 1 year 2 months. I have two questions to ask you: 1. What is a "B.U." coin? 2. What is a "clipped" coin?

I don't subscribe to your magazine. I read my friend's, but hope to subscribe soon. Thank you. —**John Epperson**

**Editor's note:** B.U. is the abbreviation to bright uncirculated or brilliant uncirculated. A clipped coin is a coin stuck in the press while another is being struck. These come in all different shapes mostly like a half moon.

---

I am a new, and very pleased, subscriber to your magazine. I classify it as 'Extremely Fine'.

Being keenly interested in the 'DOUBLE D', I have published descriptions of 5 different types of this variety, along with 105 other varieties, in my study, "Primary Die Varieties of the 1960-D Lincoln Cent".

One reader of my study has caused me to note what I think may be a very scarce variety. It is a 'thin' D above a normal D. Figuring that a die will last for about 400,000 strikes, I don't believe that there could have been very many of these with a complete higher, thinner D because progressive filling has caused this thin D to disappear except for a small part of its straight bar above the normal D. I'd like to hear from your readers who have found this type with two complete mint marks, one above the other. —**Jack E. Sams**

# THE OFFICIAL MEDAL
## *OF THE*
# CIVIL WAR CENTENNIAL
## *1861 – 1961*

**The Coin and Currency Institute, Inc., of New York and California has been appointed sole national distributor of this medal, which commemorates officially the centennial of the Civil War.**

It will be available in both bronze and silver about May 31, 1961.

The medal which is 2½" in size, is being issued under authority of the Civil War Centennial Commission, which was created by Act of Congress. The medal will be struck by the Medallic Art Company from designs and sculptor's models that have been approved by the U.S. Government Fine Arts Commission in Washington, D.C.

As can be seen from the above illustration, the obverse bears the portraits of General Ulysses S. Grant and General Robert E. Lee. The reverse shows the seal of the Civil War Centennial Commission, having as its main theme, a Union and Confederate soldier. The medal will be sold in its own specially made container and will come with a printed, informative leaflet.

In addition to the bronze medal, there will be an issue of pure silver medals, which will be limited to 25,000 serially numbered pieces. The purity of the silver will be greater than .999.

**The official prices of the Civil War Centennial Medal are as follows:**

| | |
|---|---|
| **The Bronze medal** | **$ 4.00** |
| **The pure silver medal** | **30.00** |

(**Please note:** Because of the limited issue the silver medals are offered subject to being sold out. Those wishing a silver medal should place their order now. Earlier this year many thousands were disappointed when their orders for silver Inaugural medals were placed too late. Because of the overwhelming national interest in the Civil War, it is expected that the silver medals will be quickly sold out.)

The bronze and silver medals will be available about May 31, 1961 at your local coin and stamp dealer, department store coin counters, hobby shops etc., or you may write to either our New York or California office.

Established dealers wishing to carry this medal for resale should write to us at once for our terms.
